“Read this book! It directs a spotlight on the real world of plan implementation in the St. Louis Region.”

-- Martin Braeske,
American Institute of Certified Planners

Don’t miss the newest book in the St. Louis Metromorphosis Book Series!

The plans that have been made over the years by public, nonprofit and civic agencies have given the St. Louis metropolitan area its shape and direction. Plans are the basis of the physical and built environment as well as the activities and agendas that are carried out within these environments. This book presents a novel exploration of the St. Louis region, one that considers the blueprints for the urban area as it exists today.

Edited by Mark Tranel

“St. Louis is truly one of the “gateway” cities of America. Its history and development mirror everything from our nation’s frontier and urban development to conditions of socioeconomic decline and urban restructuring. For historians, planners, and policymakers, this book is filled with good stories and good lessons.”

—David Perry, Director, Great Cities Institute

Because the past is prologue.....

Published by the Public Policy Research Center, in partnership with the Missouri Historical Society, the St. Louis Metromorphosis Book Series features volumes that document, analyze, and interpret economic, social political and historical aspects of the St. Louis Metropolitan Area.

Amateur sports, a robust Blues tradition, a major medical complex and thriving life and plant sciences... these are some of St. Louis's *Hidden Assets*. In this book, several scholars address the challenges St. Louis faces—segregation, crime, and stagnant growth—while focusing on the promising but often-overlooked aspects of the city.

*Hidden Assets: Connecting the Past to the Future of St. Louis*
$22.95  ISBN: 1-883982-56-1

*St. Louis Metromorphosis* offers a sophisticated analysis of what has been happening within the St. Louis metropolitan area over the last five decades. Using data sets extending back as long as a century, twelve scholars from four area universities analyze key policy issues and trends.
